Protection From Electricity. RUSH HILL, Mo., May 17.—Through the kindness of the editor we were on the subject of electricity. And as sent us with a request to answer through the LEDOER we take the lib erty to do so. The question is: Is it dangerous to attach a wire clothes line to a dwelling house? I answer yes, decidedly so; as the galvanized clothes line is an excellent conductor of electricity, and the clothes line, like all other bright metals, is heavily charged with negative electricity in time of a thunder storm. The electric Office at Mexico, Mo., for the week fluid is more apt to strike the clothes ending May 22, 1902, which if not and wife. good conductor, the electricity will fol- to the dead letter office at Washing
